

# Speak Freely

## Speech–Language and Oral-Motor Services

### Welcome to Speak Freely!

I would like to welcome you and your child to Speak Freely. Thank you for choosing my services for your child. I am dedicated to providing quality speech therapy in the areas of articulation, language, cognition, processing, and feeding skills. I am focused on communicating expectations, outcomes, and appropriate guidelines fully with each of my families. I often will speak freely my opinions and hope that each of my families feels comfortable enough to do the same.

I am focused on treating all areas of communication in all environments that your child participates. I treat the whole child which benefits the interactions of the entire family. I will often ask parents to observe homework, and siblings to participate when it is effective for the progress of therapy. I also utilize group sessions to foster improvements in socialization skills for some of my clients.

Speak Freely offers early language development groups that focus on language enrichment for children behind in their skills. It focuses on not only language, but sensory experiences and oral-motor skills as well. Public awareness and community education are other areas that I am dedicated to provide.

Welcome to Speak Freely and please feel free to let me know what you are thinking. I am willing to speak to any organizations and groups, teachers etc. that you feel your child will benefit from.

Sincerely,

Heidi Armendariz, MA CCC-SLP
